CORPORATE PROFILE

TICKTOS
NIGERIA LIMITED

ABOUT US

Ticktos Nigeria Limited was incorporated in 1994 to carry out construction of Civil, Roadways, Buildings, Mechanical and Electrical Engineering works. The Company has total capability in the design, procurement and delivery of major projects across a full spectrum of global markets.

Guided by principles of simplicity and clarity, we strive to operate as a streamlined group of connected businesses, able to transform ourselves whenever a better way is presented.

We specialise in delivering ambitious yet achievable construction projects that delight both clients and the communities who use them every day. We are responsible for some of the most innovative construction solutions anywhere in the world.

The company is a fledging Construction outfit with state-of-the art machineries, experienced Engineers, Surveyors, Builders and Quantity Surveyors qualified to successfully carry out execution of all works such as Roads, Buildings, Pipelines, Water Reservoirs, Concrete Jetties, Canalization. Mechanical and Electrical works such as; Power stations, Rural and Urban Electrification, Marine wielding, Pumps, Lift and Escalator installation.

We are registered with many Federal Ministries of Works, Department of Petroleum Resources and NIPEX with registration codes. We are also registered with many State government agencies. We have a competent and versatile Supervisory team as well as Technicians that are highly trained and well motivated to interpret various Engineering design and carry out their flawless execution .

The company has handled construction works successfully for bodies such as State & Federal Government, Corporations, Banks as well as private individuals. Our staff experience spans from 3 to 30+ years. Our experiences over the years have spanned different working terrains such as hilly, marshy as well as ravine environments and city dwellings.

The Company has six departments which are fully staffed with professionals. The departments are:

a Administrations
b Finance and Account
c Construction Department
d Audit
e Design dept.
f Mechanical dept.

PETROLEUM PRODUCT TRADING

Ticktos Limited is a Nigeria based corporation providing marketing and consulting services to producers and end users of refined petroleum products. Ticktos specializes in AGO, DPK, PMS, ATK & LPFO marketing, hedging advice, price risk management and marketing strategies.

Ticktos marketing strategy foundation starts on the concept of four variables referred to as the ''four P's'' = Product, Promotion, Place & Price. Defined as such, Product is the combination of service and goods the company can provide to the target market. Promotion is company exercises that will communicate the rating of the product and convince customer purchases. Place is company's ability to make the product available for customers. Price is the company working to obtain an affordable product for consumers.

Ticktos also handles transportation arrangements and contract administration and can implement a suitable sales portfolio.

QUALITY CONTROL AND ASSURANCE POLICY SYNOPSIS

Our Quality control policy objectives are to provide our Clients with high quality services which will meet their requirements and expectations.

The Quality Policy and Quality Objectives are addressed in the company quality control **Manua**l which is issued to all Staff to read, study and digest

We operate a **Quality Management System (QMS)** to enhance our services to the Clients and to assist the company to be Clients focused using the information gathered from various activities to develop improvement plans.

Our QMS is established, documented and maintained. It is continually improved in accordance with the requirements of the International Standards ISO 9001:2001.

Quality Policy

TICKTOS will always aim to provide high quality services and products that fully meet the requirements of our Clients with consideration to the environment and the health and safety of those they impact.

We shall continually monitor the level of satisfaction of our Clients and we will systematically review and improve where possible, our management systems and services to meet Clients expectations and projects delivery requirements in order to ensure that our Clients receive quality services and good project delivery at all times.

Our quality policy performance are regularly reviewed to ensure that the objectives are achieved and the commitment to continual improvement is maintained.

Quality Processing

We have in our employment quality control team headed by a Manager with cognate experiences and training in quality supervision and processing.

TICKTOS carries out its engineering construction and project delivery under controlled conditions in the most effective and efficient way, using the Clients Specifications, designs and work instructions as necessary.

We carry out the execution of the projects using suitable equipments and measured devices in order to realise a high quality product and service. TICKTOS uses a process control for all processes. The process controls that are used require that all staff posses a basic competence in the activities that they are performing. Our quality/ Manager/Supervisor ensures that suitable resources are available to sustain each process within his control on every project site.

Ticktos Nigeria Limited seeks to integrate a strong corporate culture aimed at ensuring that her every day business is aligned to the best international industry standards. This we aim to achieve through our (STRIVE) core values of Service, Trust, Relationship, Integrity, Value & Excellence.

This will be enhanced by our CASHES (Community Affairs, Safety, Health, Environment and Security) Management System and regular training of our employees to create awareness of carrying out our operations in a safe and efficient manner, with innovative programs that enables us to impart positively on the host community areas of our operations.
